## **Spectrum Analytical, Inc. – Tampa, FL Receives Contract Laboratory Program (CLP) Award Contract**

Spectrum Analytical, Inc. is proud to announce its Florida division's successful participation in the CLP program. After thorough evaluation, the USEPA has selected Spectrum Analytical's Florida division to provide laboratory analytical services to support its strategic environmental testing. Evaluation assessed lab background, overall organization, certifications, instrumentation, SOPs, data generation process, QA performance and cost.

Spectrum now has two divisions in the EPA CLP program with both organic and inorganic approval.

## **Mitkem and PEL Divisions of Spectrum Analytical have changed their name to Spectrum Analytical, Inc. Featuring Hanibal Technology**

With the acquisitions of Mitkem Corporation in November of 2007 and PEL Laboratories in March of 2008, Spectrum Analytical has worked diligently to streamline operations in order to optimize quality and services amongst all divisions. Support services exist between divisions enabling shared technical experience and resources which allow Spectrum to offer a wide array of specialty services. We are pleased to announce that all divisions of Spectrum Analytical have been fully integrated into one operating system and will now be identified as Spectrum Analytical, Inc. featuring Hanibal Technology.

Spectrum Analytical, Inc. Featuring Hanibal Technology has evolved into a leading specialized environmental laboratory and is recognized as one of the

nation's top 20 laboratories. We provide quantitative analysis of soil, water, air and other matrices. Consulting firms, industries, municipalities, universities, and the public sector depend on us for quality analytical services in a timely manner. To meet the evolving needs of our clients we have dramatically expanded our business and made significant investments in leading-edge technology while maintaining stringent Quality Assurance / Quality Control (QA/QC) standards. As we have grown in size and capabilities, we have never wavered from our commitment to build trusted relationships with our clients based on personal communications, availability for emergency situations, and responsiveness.
