HANIBAL TECHNOLOGY

## **ANALYTICAL METHODOLOGY FOR METALS IN AQUEOUS SAMPLES**

For more information, please feel free to contact our Quality Service Department at (800) 789-9115.

### **PLEASE NOTE CHANGE IN THE DEFAULT TEST METHOD FOR METALS ANALYSIS IN AQUEOUS SAMPLES**

Effective May 22, 2006, Spectrum will perform SW846 method 6010B for the determination of metals in aqueous samples unless otherwise requested. Although the default method for aqueous samples will change from EPA 200.7 to SW846 6010B, Spectrum will continue to offer EPA 200.7 upon request. If a project is required to comply with state NPDES regulations, EPA 200.7 must be indicated on the chain of custody
