

FOR IMMEDIATE RELEASE

A DIVISION OF SPECTRUM ANALYTICAL, INC. FEATURING HANIBAL TECHNOLOGY

SPECTRUM ANALYTICAL, INC. ACQUIRES MITKEM CORPORATION

AGAWAM, MA, November 30, 2007 — Spectrum Analytical, Inc. Featuring Hanibal Technology, one of the areas leading environmental testing laboratories providing quantitative analysis of soil, water and air, is pleased to announce today that it has completed the acquisition of the assets of Mitkem Corporation. Under the terms of this acquisition Mitkem Corporation will now be known as Mitkem Laboratories a Division of Spectrum Analytical, Inc. Featuring Hanibal Technology.

Mitkem is a highly regarded environmental testing laboratory with over 12,000 square foot of laboratory space located at 175 Metro Center Boulevard in Warwick, RI. Since 1994, Mitkem has been committed to the production of valid data of known quality through the use of analytical measurements that are accurate, reliable, and complete. This commitment to quality enabled Mitkem to receive its first USEPA CLP contract and USACE validation within only a few months of starting business.

The analytical services offered by Mitkem include United States Environmental Protection Agency certified testing services for soil, sediment and sludge, solid and hazardous waste, ground water, industrial/municipal wastewater, potable water; plant and animal tissue; and air. Similar to Spectrum's Agawam and Tampa, Florida facilities, Mitkem is equipped with state-of-the-art instrumentation and is staffed with a highly qualified and dedicated team of professionals.

Although this process will be seamless to our valued clients, we will be working diligently to integrate our operations without compromising current business practices or relationships as both companies share a strong commitment in providing existing and new clients with unsurpassed levels of quality, reliability and individualized service.

MITKEM'S ANALYTICAL CAPABILITIES INCLUDE:

Organic Analyses:

- Volatile Organics by GC/MS and GC/PID/HECD
- Gasoline Range Organics by GC/PID/FID
- Semivolatile Organics by GC/MS
- Pesticides and PCBs by GC/ECD
- Herbicides by GC/ECD
- Petroleum Hydrocarbon Fingerprinting by GC/FID
- Diesel Range Organics by GC/FID
- Explosives by HPLC

Inorganic Analyses:

- Metals Analysis by Inductively Coupled Argon Plasma (ICAP)
- Cold Vapor Analysis (Mercury)
- Cyanide Analysis by Ion Analyzer (Total, Amenable, Physiologically Available, etc.)
- Wet Chemistry Analyses

Non-routine Analyses:

- VOCs in Air by GC and GC/MS
- Tissue Testing (TCL/TAL)
- Landfill Gases by GC/FID
- PCB Congeners by GC/ECD, GC/MS, and Homologues

Current State Certifications:

- State of Connecticut Department of Public Health
- State of Maine Department of Human Services
- Commonwealth of Massachusetts Department of Environmental Protection
- State of New Hampshire Department of Environmental Services
- State of New Jersey Department of Environmental Protection
- New York State Department of Health
- State of North Carolina Department of the Environment & Natural Resources
- State of Rhode Island Department of Environmental Protection

Current Federal Approvals:

- U.S. Army Corps of Engineers—Missouri River Division (COE-MRD)
- Naval Facilities Engineering Services Command (NFESC)
- Air Force Center for Environmental Excellence (AFCEE)
- U.S. EPA Contract Laboratory Program (CLP)
