NEW SAMPLING PROTOCOLS FOR VOC WATERS

For more information, please feel free to contact our Quality Service Department at (800) 789-9115.

COLLECTION OF AQUEOUS SAMPLES FOR VOCs IN TRIPLICATE

Spectrum is now requesting that **three (3)** HCl VOA vials be submitted for VOC analysis. This additional vial will be used for a new screening technique. Spectrum has invested in an advanced, extremely accurate screening system which will allow for more efficient processing of VOC samples alleviating many unnecessary and time consuming re-analysis due to dilution error.
